LARGEST PAID CIRCULATION IN HANCOCK COUNTY

Entered as Second Class Matter in the Postoffice at Bay St. Louis, Act of March 3, 1879

Grand Jury Report

The text of the Hancock County grand jury report, signed by foreman Ben Hille Jr., follows:

We, the Grand Jury, having been duly empaneled, sworn and charged, for the term aforesaid and the court aforesaid, have been in session for three days, during which time we have investigated 15 cases, have heard 45 witnesses and have returned 8 true indictments.

We have inspected the county jail and found it to be clean and well kept, though somewhat in a crowded condition. We want to call the attention of the proper authorities, however, to the fact that there is a bad leak in the roof of the building which should be repaired as soon as possible and to the further fact that an electric fan presently located in one of the passageways to the jail constitutes a safety hazard in its present condition due to the lack of proper screening or guarding about the blades.

We have, likewise, visited the county home and found it to be in excellent condition and being well managed.

We inspected the Hancock County General Hospital, and we were impressed by its clean condition and excellent management. However, we note the need for a pump house or enclosure for the water pump located there, as well as the need for additional storage space. We are informed that funds are presently available to meet these needs, and we strongly urge that the board of supervisors make the necessary alterations for this construction. We further note the need for additional office space at the hospital and request that the board of supervisors authorize the expansion of present office facilities into a portion of the present colored waiting room, which space is more than adequate to the needs of the colored ward. We understand that funds for this expansion also are presently available.

We have made an inspection of the court house building and offices, and we have noticed that several previous grand juries have

made similar inspections which have been followed by strong recommendations for the correction of these conditions. It appears that they have not been corrected, and this grand jury strongly recommends that a copy of this report together with prior reports be furnished to the grand jury immediately upon its convening at the March term, 1962, being the next term of this court for their consideration. We deem these repairs to be necessary to the proper maintenance of the court house building. The conditions to which we refer are fully set forth in the March, 1961, grand jury report, and from our inspections we find that the same conditions still exist, and there is no need to repeat them here. It is sufficient, it seems to us, to refer the Board of Supervisors to the report of the March, 1961, grand jury and to our report which finds the same conditions.

We want to call to the attention of the sheriff, the deputies, the city police officers, and constables in their respective jurisdictions to the increasing "drag strip racing" being carried on in the county, some of which is being done in school zones, and on highways and county roads. It has come to our attention that this has cost the life of at least one person in recent months, and every effort should be made to strongly enforce the laws against this type of offender, and where these people are convicted, whether in the youth court or in other courts, if possible, the driver's license of the person should be revoked.

It has come to our attention that the radio equipment now being used by the sheriff's office and the frequencies covered by the equipment have been discontinued by the FCC for this type of use effective, we understand, in early 1963. We understand further that the equipment now being used will not reach throughout the county, and it is necessary for officers located on the extremes of the county to drive in to bring their cars within range

of the station. The Civil Defense Agency of the federal government will pay one-half of the cost of this equipment, and we recommend that the board of supervisors, as soon as the county is financially able, replace this equipment before it becomes out-dated. It is particularly important to our county, situated along an important highway such as Highway 90, to have this type of facility available for the safety of our people. We wish to express our appreciation to the circuit clerk for his preparation of the docket and the courtesy extended to us, to the City of Bay St. Louis for its co-operation, to the sheriff, his deputies and assistants for their excellent work and co-operation, to your Honor for your able charge to us, and to the district attorney and the assistant district attorney for their assistance during our deliberations. And now having concluded our labors, we beg to stand finally discharged.

Farnsworth Death

Funeral services for Mrs. Edith L. Farnsworth, 63, of Pascagoula, Miss., were held Friday morning at 11 o'clock at St. John's Episcopal Church, Pascagoula, with the Rev. Vlanynek, rector, officiating. Interment was in Maplewood Cemetery.

Mrs. Farnsworth, a native of Logtown, died at Singing River Hospital in Pascagoula following a six-week illness.

Kantcha Ketchum

Perfect weather prevailed over the weekend, clear and a little cool, but the waters in the rivers and bayous were a little on the bad side, due to the recent rains caused by hurricane "Carla." Green trout and perch were not biting too good.

Some specks were biting on the Railroad Bridge and down in front of Waveland. Bait, however, is the problem as shrimp are still really scarce.

Jerome Carver and Watson Johns caught a few green trout towards the end of last week. Jerome said they should be at their best in about a week when the water clears and with cooler weather.

Local fight fans are awaiting the coming fight on Sept. 23 between Ralph Dupas and Del Flanagan in New Orleans. Ralph has a number of fans here who will be pulling for him on that night. A large attendance is expected at St. Mary's Gym.

Bay High has a good football schedule this season and much is expected of the boys from the local school.

John Genin is a boarding student this year at St. Stanislaus. John said it is rather hard to follow the strict routine but he likes it. Robert Genin left Sunday for college.

With dove hunting open for the split season, very little has been heard of any real kills as yet. Must need some cooler weather. The dove is a migratory bird and not domestic. Maybe they haven't headed our way as yet.

Jefferson Downs opened Tuesday night for the first racing at the New Orleans Park. A number of first class horses and jockeys are on and some good cards are scheduled for each night Tuesday through Saturday. Post time is 7:45 p.m. A number of local fans attend from the Bay.

Some frogs are being caught at Pearl River according to a report received Saturday. They are large and plentiful, said one frog enthusiast.

All you need is the urge to go.

Luke Elliott and son Chipper, Joe Glover, Wop Glover, August Rauxet and yours truly are looking forward to a trip to the marshes this weekend. Speckles had better look out.

Sidney Praque has returned from a business trip to Chicago. Sidney has been gone for a couple of weeks and said he is way behind on his golf.

There will be a Laymen's dinner on Saturday.

ner on Saturday, Sept. 23, for the men of Christ Episcopal Church. A good place to meet a bunch of good sports and workers. Better attend!

Gerald Kennedy, Norman Penrose and Mr. Penrose Sr. were among those catching speckles off the seawall this week.

Game Warden Nolan Ladner, Mrs. Ladner and son, Nodie have recently returned from a vacation trip to Seattle, Washington, where they visited the Ladner's son, Mickey and new arrival. They journeyed out through Colorado and California. Nolan said the trip was swell. He observed some of the fishing and fishing laws in that part of the country.

Mr. and Mrs. A. J. Piazza were weekend guests of their son-in-law and daughter, Mr. and Mrs. Carlo Pisciatto and family in New Orleans.

Mrs. Gladys Haas, Hancock County Welfare Agent, attended a staff development conference last Wednesday in Jackson, Miss.

SOIL CONSERVATION NEWS

A dedication program for the Ellison Creek Watershed Project Yazoo County, has been set for October 4, 1961. Water Management Commissioners, Soil Conservation District Commissioners, agriculture workers, and key leaders throughout the state are being invited to attend.

As a part of the program, a tour will be conducted to points of specific interest in the watershed. Other items of interest will be discussed by the proper authorities of the watershed program, assisted by local farmers and county agriculture workers. Some of the agriculture workers from Hancock County plan to go to this dedication. It is the first within the state and will be

Attend Football Game At Columbia

Mr. Joe Lolkano, Miss Courtney Coward, Nellie Rhodes, Jr., Patsy Quintal, Doc Rhodes, Bart, for Mr. Frank Repetore, Richard Thomas and Luke Caruso were among those from Bay St. Louis who attended the Pearl River Junior College - East Mississippi Junior College football game at Columbia last Saturday night.

Local boys on Pearl River's team are J. E. Lolkano, Ronnie Artigue, Bill Watts and Woody Allison.

Mr. and Mrs. Wallace Bontemps are back home after spending the weekend with relatives in Independence, La. Saturday, they attended the wedding of Mrs. Bontemps' nephew Freddie Straughan.

Very interesting to those who are concerned in helping to control and conserve our natural water supply. Contact Hugh Sanford for more information if interested in going.

Business Research Figure

With the anticipated fall pickup at hand, there are indications of increased business activity and other economic gains for Mississippi. The month just ended apparently followed July, when July business activity in the state as a whole was some two per cent above the previous high for July set in 1960. Mississippi's economy appears to be prosperous and stable as we enter the fall season.

LET'S DRIVE SAFELY

WITH Mississippi's school children going to and from school these days, it's more important than ever to drive safely.

Last year over 37,800 people lost their lives through auto traffic accidents across the nation. Most of these accidents were due to excessive speed or failure to observe a few simple rules of the road.

The simple rules telephone drivers learn in their "Defensive Driving" training program are courtesy, care and commonsense. Applying these "three C's of Safety," Mississippi phone employees last year set a new all-time safety record while driving a total of 5,359,243 miles.

Always drive with courtesy, care and commonsense.

They call him a problem child. "Can't reach him," say some. "He won't respond," echo others. Young as he is, he's already been in trouble with the police.

Why? There are lots of words, lots of phrases, to describe youngsters like this. The papers are full of them every day. There are lots of excuses given—for him, and for society. Are they valid?

This boy has parents. Why can't they reach him? Is it, perhaps, because they can't really reach themselves? Because they've never found themselves?

Self-discovery takes courage. It doesn't come easily. It takes help. It demands faith. The starting point for a quest of this kind is in the Church. This boy needs the Church. So do his parents. So, for that matter, do we all!

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NOTICE OF TRUTH

Whereas, on the 21st day of March, 1955, Leonard Drake, Trustee, a certain trust and note securing indebtedness therein described and payable to Ed. P. Orte, deed of trust is of record in Volume 58, Pages 588 and 589 of the records of mortgages and deeds on land in Hancock County, Mississippi; and,

Whereas, in conformity with the rights, powers and authorities vested in said deed of trust, the maker thereof to the best of his knowledge and belief, and of any legal holder and owner thereof to substitute the trust named therein, the said Ed. P. Orte, beneficiary named in said deed of trust and the present trustee and holder of said deed of trust, note and indebtedness secured thereby, did appoint and substitute the undersigned Vera Breland as substitute trustee in the place and stead of Ed. P. Orte, trustee as aforesaid, as shown by substitution of trustee dated August 11th, 1961 and duly recorded August 12, 1961 in Volume 58, Page 477 of the aforesaid records of mortgages and deeds of trust on land; and,

Whereas default having been made and still persists in the payment of the indebtedness secured by the aforesaid deed of trust and demand has been made upon the undersigned substituted trustee by the said Ed. P. Orte, the present owner and holder of aforesaid mentioned indebtedness, note and deed of trust, to foreclose same and sell the property therein described and conveyed to satisfy said indebtedness;

Therefore, I, Vera Breland, constituted trustee, will on the 21st day of September, A.D., 1961, within legal hours at the front door of the County Court House in the City of Bay St. Louis, Hancock County, Mississippi, offer for sale and sell, in cash at public outcry, to the highest and best bidder therefor, the following described land in the County of Hancock, State of Mississippi, to-wit:

1. Beginning at a iron stake 20 feet South of the Northeast Corner of the SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 30, Tp. 7 S. R. 14 W. Hancock County, Mississippi, then South 65 feet to an iron stake thence West 136 feet to an iron stake on the East side of the Elm Poplarville Public Road, thence N 13 degrees and 38 minutes E 68 feet to an iron stake, thence East 123 feet to the place of beginning, said land containing 1/4 of an acre, more or less and being part of the SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 30, Tp. 7 S. R. 14 W. Hancock County, Mississippi.

2. Commencing at the center of the Logtown Road, at a point where the land owned by H. McGuire and T. M. Favre corners, thence running West 1043.65 feet, thence North 208.73 ft; thence East 105.9 feet to said Logtown Road, thence South 208.73 feet along said Road to place of beginning, said land containing 5 acres, more or less and being part of Lot 4, A.B. the say Est. Sub. of Sec 8 and 9, T. 7 S. R. 16 West, Hancock County, Mississippi. It is my intention to convey the same land as described in Vol. W, Pages 1428 of the Record of Deeds of Hancock County, Mississippi.

The Title to said property is lived to be good, but I will convey only such title as is vested in me as substituted trustee.

WITNESS my signature this 28th day of August, A.D., 1961.

Tremendous Expansion in Electric Transmission Facilities Stated

A tremendous expansion in the electric transmission facilities comprising The Southern Company's integrated system will take place during the next decade, Company officials declared here today. The Southern system includes Alabama, Georgia, Gulf and Mississippi Power Companies and Southern Electric Generating Company.

The four-state operating area of 122,000 square miles is served by a network of 17,000 circuit miles of high voltage lines, including 900 miles of 230,000 volt lines. By 1970, according to present plans, the system will have approximately 3,000 miles of 230,000 volt lines, or more than three times the present figures.

All of the major electric systems in the Southeast are interconnected in vast power grid. The

Southern group, occupying a central position in this network, now has 16 interconnections, with neighboring utilities in North and South Carolina, Florida, Tennessee, Mississippi and Louisiana. By 1970, five interconnections of 230,000 volts are expected to be in service.

Exchange of electric energy over the Southeastern interconnected network provides power resources for emergencies and reduces the reserve requirements of each utility must maintain.

The Southern system companies expect the present power requirements of their service area to double by 1970. This growth will be brought about by the location in the Southeast of many new industries and the expansion of existing industries; by increased commercial activity and by the creation of thousands of new homes. A very large growth in power consumption will also be

brought about by the general use of electric energy for applications at present in the development stage. One in particular is electric heating of factories, commercial establishments and homes.

At the end of 1960 the Southern system's investment in transmission facilities was approximately \$395,000,000. By 1970 this figure should substantially exceed \$600,000,000, as new higher voltage lines are built to provide for the movement of larger and larger blocks of power.

Generating capability of the system at the end of 1960 was over 5,300,000 kilowatts. By 1970 this figure is expected to exceed 12,700,000 kilowatts.

The Southern generating and transmission facilities have been operated for many years as a completely integrated power pool with a central power coordination office in Birmingham. This office in 1954 installed the world's first "incremental cost of delivered power"

computer. This computer continuously determines the most economical use of the various sources of power, including interchange with other companies, for lowest cost electrical energy supply to consumers in all parts of the area served by the system.

The power pool provides important saving in the cost of electricity through coordination of operations of hydroelectric and steam electric generating plants. Its permits the installation of larger steam-electric generating units close to sources of low cost fuel within the area and reduces the amount of reserve generating capacity which each operating company would otherwise have to maintain. The savings, both in capital investment and operating expenses, are reflected in lower electric rates to consumers throughout the territory served.

Re-Elect Incumbent Officers For West Coast Deaconry NCCW

At the quarterly meeting of the West Coast Deaconry of the National Council of Catholic Women, held in Pass Christian on Wednesday afternoon, September 13th, the incumbent slate of officers were unanimously re-elected, namely: Mrs. George F. Stevenson, President; Mrs. R. L. McFadden, of Long Beach, Vice President; Mrs. E. J. Arceneaux, Treasurer; and Mrs. Robert Kemery, Recording Secretary.

Thirty-eight women representing parishes from Gulfport, Long Beach, Pass Christian, Bay St. Louis and Piquette were in attendance, and the host parish was St. Paul's Church in Pass Christian.

The meeting was opened with prayer by Rev. Father James P. McGlade, Pastor of St. Paul's

Church, Pass Christian. Interesting Deaconry reports were heard from the various committee chairmen, and Mrs. Robert Reed, Jr. of Long Beach who is Deaconry Civilian Defense chairman, gave a very informative talk on civilian defense and the splendid work of preparedness that was accomplished by the Long Beach organization during Hurricane Carla's bad weather.

The members were told of the annual Convention to be held in Hattiesburg on October 14th and 15th, with headquarters at the Forest Hotel, for which an interesting program has been prepared and the ladies were urged to attend.

NOTICE TO BIDDERS

Sealed bids will be received by the Hancock County School Board, in Bay St. Louis, Mississippi to be delivered to the Office of the Superintendent of Education on or before Monday, October 2, 1961 at 2:00 p.m. at the Court-house in Bay St. Louis, Mississippi for the following:

The school buildings and other school facilities formerly known as the Kiln School and located on the following property, to wit: Beginning at an iron stake where the line between Lots 9 and 10, Division of the J. B. Nease Claim, Township 14, South Range 14 West intersects the North line of the Kiln-Delisle Public Road; thence North 67 feet along Lot line to an iron stake; thence N 83° 40' E 102.5 feet along Lot line to a point; thence North 142.8 feet to an iron pipe; thence N 88° 45' W 102 feet more or less to a fence on the line between Lots 9 and 10; thence North 832 feet more or less, along the line between Lots 9 and 10 to the NW corner of the School property; thence East 879 feet more or less to the NE corner of the school property; thence South 663 feet more or less, along the line between Lots 8 and 9 to an iron stake; thence West 100 feet; thence South 420.5 feet more or less, to an iron pipe on a fence line on the North side of the Kiln-Delisle Public Road; thence West 279 feet along the North side of above mentioned road to the place of beginning, said land containing 9 acres, more or less, and being part of Lot No. 9 J. B. Nease Claim, Township 7 South, Range 14 West Hancock County, Mississippi.

That a condition of said sale shall be that one-half (1/2) of the oil, gas and other minerals owned by the school district shall be reserved by said School District. Bids will be accepted on the property in its entirety.

The Board reserves the right to accept or reject any and all bids. Done by order of the Hancock County School Board, this 5th day of September, 1961.

Mississippi Savings And Loan Association Record Increased Loans

Mississippi Savings and Loan Association received more new savings in July than in the same month a year ago, but withdrawals exceeded new receipts by 4.8%. In July 1960 withdrawals were greater than receipts by 3.5%.

This reflects the movement of savings following the payment of dividends on June 30th by savings and loan associations. New savings in July 1961 for the 34 Mississippi associations, which are members of the Federal Home Loan Bank of Little Rock amounted to \$10,131,587. In July 1960 new savings were \$9,113,439 and withdrawals \$9,432,966.

The net savings capital of the 34 associations on July 31, 1961 was \$270,699,523 as compared with \$271,149,797 on June 30, and \$239,125,743 in July 1960. The gain over last year was 13.2%.

On the lending side, Mississippi Savings and Loan Association closed mortgage loans in July totaling \$5,536,132 as compared with \$5,101,505 in June and \$4,423,764 in July 1960.

For the first seven months this year mortgage loans totaled \$35,476,552, well above the \$29,849,701 recorded for the same period last year.

In the five state area (Miss., La., Ark., Tex., New Mexico) served

by the Little Rock Savings and Loan Association, net gain was \$2,423,874 for July, 1961, as compared with a net gain of \$2,423,874 in July, 1960. Total assets were \$30,847,788, a substantial increase over the \$27,381 recorded for the same last year.

Instructor Billy Reynolds (turning front wheel) and Shell dealers check out a car at one of Shell's 123 training centers.

HOW TO SPOT TROUBLE:

Shell instructor Billy Reynolds reveals 10 trouble signals he tells Shell dealers to watch for. You should know about them too. They may help you spot trouble before it starts.

Shell's Billy Reynolds

More than 12,000 Shell dealers go to Shell's 123 training centers every year. Classes cover the gamut of station operation. But trouble-spotting gets special emphasis. Here are 10 trouble signals that Billy Reynolds, one of Shell's chief instructors, stresses.

If you notice any of them in your car, tell your Shell dealer. His advice may help you head off a big repair job.

1. **Mushy brakes.** When your car is standing still, push your brake pedal down with a firm, steady pressure. If the pedal feels soft and sinks all the way to the floor board, you've got trouble that should be fixed right away. Could be a leaking wheel cylinder. Or, more likely, a leaky master brake cylinder. A well-trained Shell dealer can track down brake troubles quickly.

2. **Wandering wheels.** If your front tires show more wear on one side of the tread than the other, your wheel alignment is probably at fault.

NOTE: an out-of-line wheel drags at an angle to the line of travel — can increase tire wear up to 50 per cent.

Be sure to discuss rigors of uneven tire wear with your Shell dealer.

3. **Jiggly front end.** Put your foot on

either bumper, and shove down hard. If your car bobs up and down for a long time, ask your Shell service man to check your shock absorbers.

4. **Decrepit tail pipe.** If your tail pipe is rusted through in spots, it should be replaced. Same thing for your muffler. A worn-out exhaust system can make your car roar like a wounded hippo. Worst of all, you run the danger of exhaust fumes seeping into the passenger compartment. Your Shell dealer can take care of the whole problem.

5. **"Bloated" radiator hose.** Inspect all of the rubber hoses that interconnect your cooling system. If they are cracked or swollen, they can fail at any time and cause your engine to overheat. Replacing hoses is a simple task for any Shell dealer.

6. **Marred windshield.** Feel the blades on your windshield wipers. If they're hard, they can scar the glass. If they're frayed, they can streak it. Ask your Shell dealer to check the spring pressure on your wiper arms too. If the blades rest too lightly against the windshield, they can blow away from the glass and let the rain swamp your view.

7. **Strange noises.** Listen for squeals, squeaks, rattles and other mysterious noises. Strange noises are often warnings of troubles on the way. So, don't be afraid to ask your Shell dealer about sounds you haven't heard before.

8. **Under-the-hood clues.** You can learn a lot just by looking at your engine. Watch for oil, fuel or water leaks. Even tiny leaks can lead to big trouble later on. You can also make a quick visual check of wiring and electrical connections. If wires are hanging loose — or insulation has worn away — see your Shell dealer.

9. **Sluggish battery.** If your engine turns over more slowly than usual when you start up, an inspection of your electrical system is in order.

A run-down battery is usually the cause of starting problems. But the real trouble may be elsewhere. Something as simple as a loose battery connection can do it. Or your voltage regulator may need a minor adjustment. Play safe and tell your Shell service man.

10. **Oil-streaked sidewalls.** It may take a bit of back bending, but it's worth the effort to check the side of your tires you seldom see — the side facing in. Look for signs of leaking fluid on the tire walls. Could be a leaking brake cylinder, or faulty oil seals on the rear wheels. Both can be serious.

Any trained Shell dealer knows many more trouble signals than the ten listed here. Ask him to give your car a bumper-to-bumper inspection next time you stop in for a Shell lubrication — or any service job. One last tip: when you've got your car in top condition, keep it

filled with the gasoline that's made for top performance — today's Super Shell with 9 ingredients.

Super Shell's 9 Ingredients for top performance

- #1 is TCP* — for power, mileage, longer plug life.
- #2 is Pentane mix — for fast warm-ups.
- #3 is anti-knock mix — for resistance to all kinds of knocks.
- #4 is Alkylate to control "high-speed knock."
- #5 is Butane — for quick starts.
- #6 is "cat-cracked" gasoline — for power.
- #7 is an "anti-icer." Added in cold weather.
- #8 is gum preventive to keep carburetors clean inside.
- #9 is Platformate for extra mileage.

Hold Joint Meeting

St. Margaret's Daughters and the Altar and Blessed Sacrament Society met jointly recently at the Parish house with Mrs. V. J. Piazza, Mrs. E. P. Larroux, presiding.

Rev. Kevin Reid opened the meeting with a prayer, and Mrs. V. J. Piazza reported on the July 15 Veterans party with Mesdames C. R. Boyer and Albert Kuehn as co-hostesses.

It was announced that a request for a donation towards a school for retarded children was made and a retarded child had been sent to summer camp. A letter of thanks from the camp director was read.

Mrs. Piazza reported that during July and August food supplies were furnished 4 families, medicine, 10 families, school clothes were given to children of six families and used furniture was distributed to a needy family.

A motion by Mrs. Lucille Weeks that all bills be paid was carried. Mrs. Larroux announced the Altar Society would continue to function on the Guild system during the coming year and that a membership committee will be appointed to work with the guild.

Mrs. Stella Gex gave a report of the collection for a new altar cloth. Mrs. Weeks offered to donate the linen for an altar cloth which will be trimmed with lace made by Mrs. Roland Cuevas. Mrs. D. B. Martin made ostensorium and ciborium covers and Miss Kathleen Renshaw had the Holy water vessel buffed.

Mrs. Larroux thanked members for their work during the year. It was announced that the Diocesan Council of Catholic Women will meet in Jackson October 14 and 15. Father Reid gave the closing prayer.

grounds. They will also see a record-breaking Livestock Show which required the erection of two modern new barns connected to the present complex of livestock facilities by covered walkways. A new paved midway extending almost one mile from front entrance to back exit will also greet the visiting editors. Another State Fair highlight to be viewed by the newspapermen will be the "Showcase of Mississippi Products" an eye-opening spectacular sponsored by the state's manufacturers.

"STRONG SUPPORT" URGED OCTOBER 9 FOR TWO AMENDMENTS

Governor Ross R. Barnett this week that every voter can play an important role in the state's economic future by going to the polls on October 9 and voting in favor of two constitutional amendments.

"The job of bringing a million oil refinery to Mississippi and thus opening the investment in all parts of the state is only partly done," Governor Barnett observed.

Added, "acted quickly and with only one dissenting vote to recommend to our people that they approve two constitutional amendments necessary to insure the location of this industrial giant in Mississippi. Overwhelming support of these proposals by the people at the polls on October 9 will be the strongest evidence possible that Mississippi means what it says about wanting to improve its economic position."

The governor called attention to the fact that the Mississippi Association of Supervisors, which represents every corner of the state, has approved the proposals by unanimous action and that the state's daily and weekly newspapers have given overwhelming endorsement.

The proposals would give counties authority to sell or lease to 99 years 16th Section school lands and extend ad valorem tax levies for industrial purposes from five to ten years. Municipalities already have authority to lease school lands for 99 years to grant the ten year exemption.

"Mississippi," Governor Barnett said, "is in the midst of a struggle with other states for the opportunities and payoffs that are offered by new industry. It is imperative that we make ourselves competitive if we are to have this chance to move ahead and thus give our people a new economic boost. That is why it is so important that the people show strong support on October 9 in the amendments recommended by the legislature."

Date Of Planting Is Major Factor in Winter Grass

Date of planting is one of the most important factors in getting good stands from winter grasses in home lawns. If the winter grass is overseeded too early, competition from summer grasses will decrease stands. If planted too late, cool temperatures will decrease germination of the seed. Recommended planting dates are for North Mississippi, October 10-20, and for the southern part of the state, October 20 and November 1.

Miss. Delegation Act On Legislation To Assure Refinery In Mississippi

WASHINGTON, D. C. — Three members of the Mississippi Congressional Delegation moved swiftly on legislation to deepen the Pascagoula Harbor to assure location of the proposed \$125 million oil refinery in Mississippi.

Senator John Stennis, Congressman W. M. Colmer and Congressman Frank E. Smith said here today they had started action in the Senate and House Committee on Public Works to authorize the U. S. Corps of Engineers to survey the harbor deepening proposal for feasibility and cost estimates.

The Stennis-Colmer-Smith move was made as Mississippi legislation, in special session assembled, voted to provide constitutional changes to open the way for the location of the big refinery.

Stennis said the Senate Committee on Public Works adopted a resolution calling for the engineering survey. Likewise in the House, Colmer, assisted by Congressman Smith, a member of the committee, received approval of a similar resolution in that branch of the Congress.

Engineers are now working on a project approved earlier this year to deepen the Pascagoula Harbor to 35 feet, but oil companies claim the harbor needs an additional five feet of depth to accommodate oil tankers movement of refined oil from the refinery to overseas markets.

The three said a proposal will be made to Congress to appropriate \$30,000 for engineering survey costs.

Baptist Church Honors Teachers At Reception

The First Baptist Church honored the public school teachers and teachers of the Christ Epis-

His Excellency, the Most Rev. John Kodwo Amisshah, Archbishop of Cape Coast, Ghana, West Africa, ordained four Divine Word Missionaries to the Subdiocese.

The impressive ceremony took place Thursday, September 14, at 8:30 a.m., in the main chapel of the Divine Word Seminary here.

Those who received the Subdiocese, the first major order leading to the priesthood, were: Frater Charles Burns, S.V.D., of Greenville, Mississippi; Frater George Artis, S.V.D., of Wilmington, North Carolina; Frater Anthony Dugay, S.V.D., of Port Arthur, Texas; and Frater H. Emmanuel Myvett, S.V.D., of Belize, British Honduras (in Central America). These young missionaries will receive the second major order - the Diaconate - on December 10, 1961, and the final step - the Priesthood - in 1962.

In addition to the Subdiocese, the Archbishop also bestowed the first minor orders of Porter and Lector on eight seminarians. Five more seminarians were raised to the clerical state by the reception of Tonsure. Although not really an order, nevertheless, Tonsure is a sacred rite, by which a layman is received into the clerical state. Tonsure, moreover, is the prerequisite for the reception of the minor and major orders which lead to the priesthood.

Our sincere congratulations to all these young men, and we pray God to make them faithful and zealous clerics of the Church.

For the occasion were promoted by the women of the church led by Mrs. James Fillingame. During the reception, Mrs. Frank Pike and Mrs. Sidney Ball served coffee. Mrs. M. J. Necaie and Mrs. M. L. Hill served punch being assisted by Mrs. John Stone and Mrs. Anthony Scafidi.
